air purification solutions for coffee roasters

REICAT

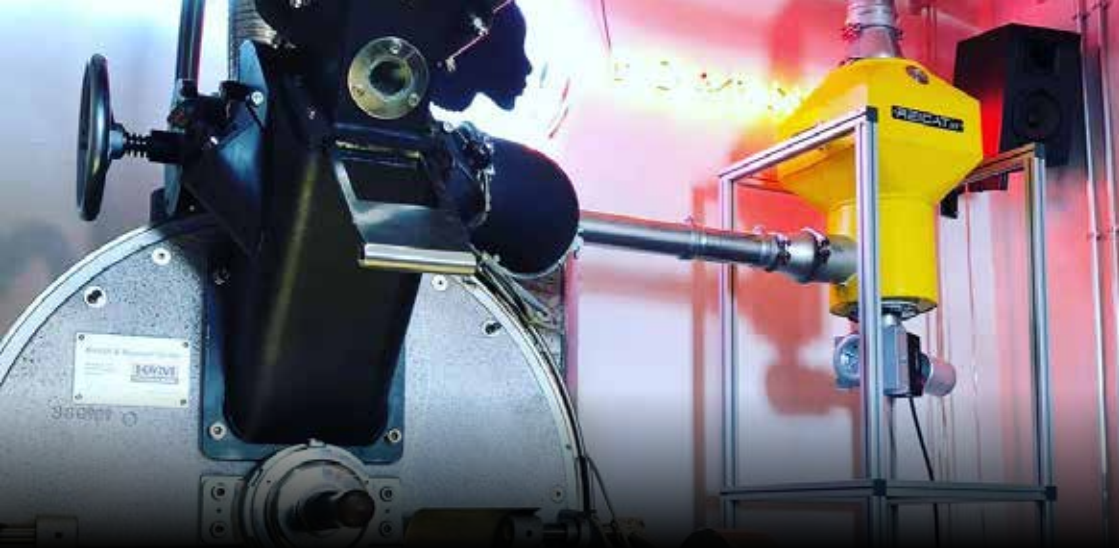

“ The contact with ReiCat was absolutely great. Many thanks again for the competent support. ”

Jonas Hofmann
Die kleine Kaffeerösterei, Schweinfurt (Germany)

“ By purchasing the ReiCatino® it is possible for us to roast at any time and independent of the quantity. Our roastery is located in a residential area and now we don't have any trouble with the neighbours anymore. The chimney now no longer releases odours. ”

Rainer Helmke
Home Roasting Company Helmke, Hamburg (Germany)

“ With the upgrade to the ReiCatino® I have finally got my immissions under control as far as odour and smoke are concerned. The company ReiCat is very competent and professional. ”

Florian Steiner
Florian Steiner Kaffeerösterei, Heidelberg (Germany)

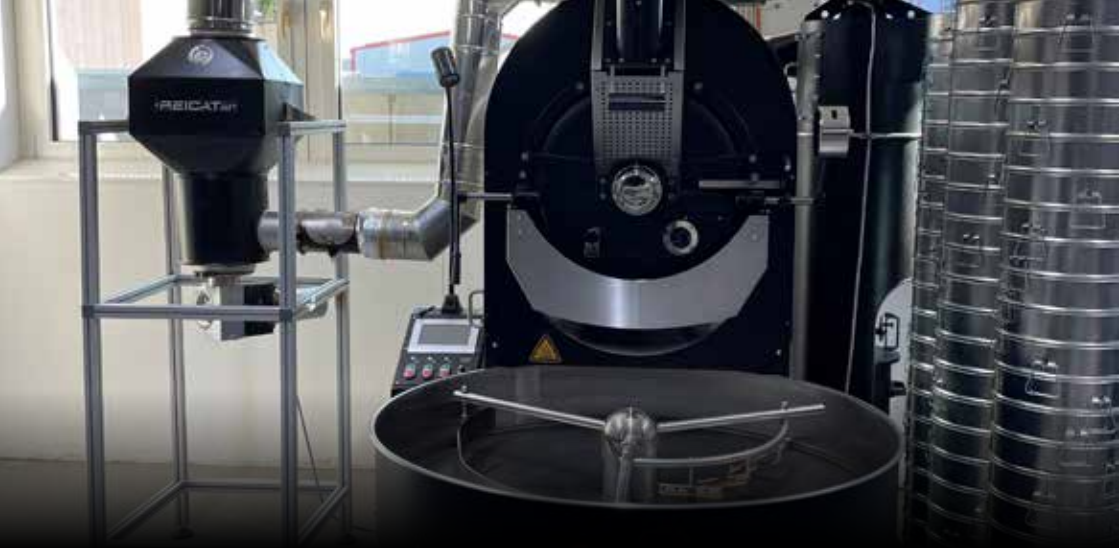

“ Dear ReiCat team - a big thank you, it was just fun with you. The ReiCatino® does what it is supposed to do. Simply fantastic! We just hope that our neighbourhood won't miss us ;-) ”

René Klinger
Kaffee Monopol, Stralsund (Germany)

“ We are very satisfied with our ReiCatino®
and your service! ”

Laura Feyel
Nautilus Kaffeerösterei, Schorndorf (Germany)

“ The ReiCatino® has helped us to reduce odour emissions significantly without affecting the roasting result. The right decision for us, and I would make it again. ”

Jörg Schmidt
Bäckerei Schmidt KG, Heideck (Germany)

“ My Cat is ReiCat! ”

Reiner Sulzer
Espressone, Cadolzburg (Germany)

“ ReiCat is the best solution for smoke and
odour removal - so even the neighbours
become future customers. ”

Josef Gander
KUNTRAWANT, South Tyrol (Italy)

“We roast in one of the most densely populated neighbourhoods in the city. The ReiCat Gourmet ensures that we can continue to do so for our enjoyment and that of others. The communication and installation went exemplary. We can recommend ReiCat on every level.”

Philipp Schallberger
Kaffeemacher GmbH, Basel (Switzerland)

“Roasting the best coffee is our very own mission -
a mission that can only succeed with an extraordinary
team and the support of high-quality machines.
We are grateful for our professional
partner ReiCatino®.”

Christian Arneitz
Röstbar, Villach (Austria)

“ A lot has been going on behind the scenes.
We repositioned our Probat P12 III and connected
our second catalyst from ReiCat.
No smoke - no smell - just a warm breeze. And the
new production area looks stylish, too. ”

Wolfram Sorg
Backyard Coffee, Frankfurt am Main (Germany)

“ We roast in a small town, where its very important for us to be in good terms with our neighbours. With ReiCatino[®], we reduced our emissions and odours a lot, so we can keep our neighbours happy. ”

Peter Repka
Discovery Bliss, Csömör (Hungary)

“ Corsino Corsini srl is the pioneer of the environmentally friendly ReiCat Industrial technology in Italy. The ReiCat catalysts are perfectly tailored to our roasting machines of different brands and capacities. The results in terms of emissions are excellent [...] In addition, we can report a reduction in energy costs of around 40 to 50%! ”

Fabio Pieracci
Caffè Corsini, Badia al Pino (Italy)

“ Since 2017, DICAFA is producing in an even more environmentally friendly way thanks to the ReiCat Industrial catalyst. Five years after installation, we are still extremely satisfied with the excellent performance in terms of smoke, odour and atmospheric emissions. ”

Nino Balli
DICAFA, Bra/Piemont (Italy)

“ Great unit, we should have installed something like this earlier ... Super simple, super clean, super nice neighbours! And the chimney sweeper is delighted – even if he doesn't have to sweep the chimney that often. ”

Michael Schulz
Kaffeerösterei MIKA, Miltenberg (Germany)

“ Since we started operating the ReiCatino® in our roastery, odour emissions are down to almost zero. This gives us peace in the neighbourhood and peace at work. We are very satisfied with the installation and the service! ”

Florian Perkmann
Rösterei Bohnenreich, Miesbach (Germany)

“Being a specialty coffee roastery in the city, we care a lot about the environmental impact of our coffee roasting. Thus we find the ReiCatino® helpful to reduce odour emissions and to make our roasting operations more environmentally sustainable. Thank you, guys!”

Daniel Balla Halalla
Impact Roasters, Copenhagen (Denmark)

“ Thanks to our two ReiCatino® we can meet the city's requirements as well as keep the neighbourhood happy. There are no complaints and there are also no filter failures, as was the case with the electrostatic filter – a clean thing! ”

Stefan Bracht
Kiez Rösterei K61, Berlin (Germany)

“ Reliable and friendly company with an
outstanding product. The environment is happy -
the neighbours too! ”

Paul Bonna
Kaffeekommune GmbH, Mainz (Germany)

“ We are 360-degree happy with the exhaust air purification system made by ReiCat according to our individual needs. From the consulting to the custom-fit implementation to the unbeatable service, we give full score. „Sauber gemacht“ says the Bavarian. ”

Peter Vit
Kaffeerösterei Martermühle GmbH, Aßling (Germany)

“ We are very satisfied with our ReiCat Industrial. Our roaster has been running in combination with the ReiCat catalyst for years - and very well. It's a match! ”

Konstantinos Tsotsoglou
SOTTOS Family GmbH & Co. KG, Herbrechtingen (Germany)

“ We opened our roastery in the middle of a residential area, within walking distance of the city centre. Thanks to ReiCat we do not produce any smell or smoke when we roast. We have lowered our emissions, and we are happy: for us, for the neighbours, for the environment. During the purchase and installation we were followed, advised and guided. The staff at ReiCat is helpful, friendly and very competent. ”

Simone Manfredini
Manfredini Coffee Lab, Montecchio Emilia (Italy)

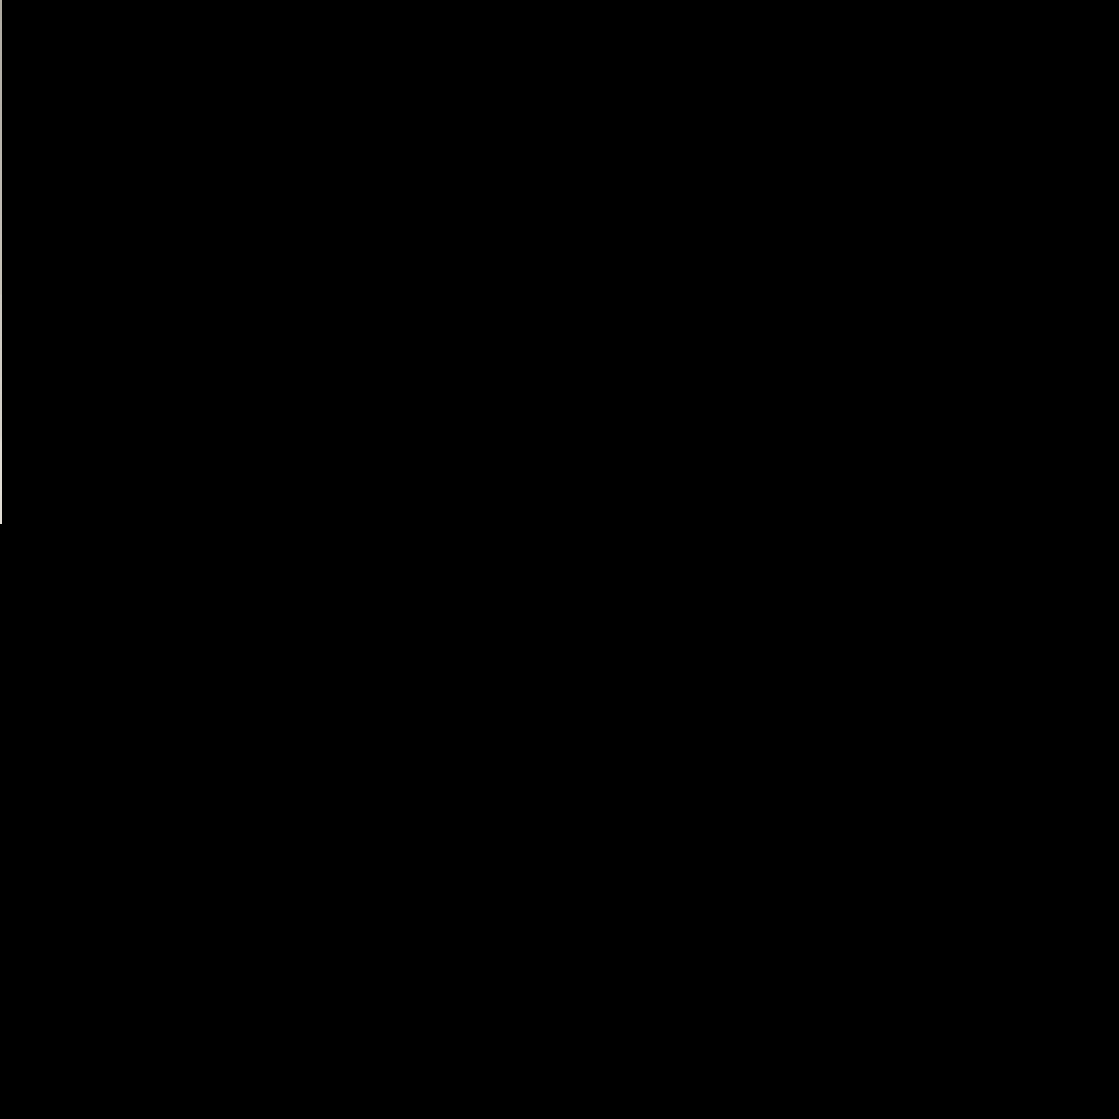

“ We roast in the town centre. Odour and emissions weren't an option. Our option: the ReiCatino® 450. From the first contact to the installation, an excellent service. Thank you. ”

Jens Renda
6054 Coffee Roasters, Rodgau (Germany)

“ The Bazzara Lab is located in the heart of the centre of Trieste. Here we roast coffee from all over the world, and yet every person who visits our laboratory is amazed at how there is no smell outside. This is the magic of our ReiCatino® which has also helped us to lower emissions. ”

Silvia Risitano
Bazzara S.r.l. , Trieste (Italy)
